EXECUTIVE SUMMARY

David is a results-driven Senior Software Engineer with over 8 years of experience in Full Stack Web Development, specializing in JavaScript and a wide range of frameworks including VueJS, ReactJS, and Laravel. Throughout his career, David has delivered exceptional results, leveraging his knowledge and expertise to develop innovative solutions that meet or exceed customer expectations. His exceptional problem-solving skills and ability to work collaboratively in cross-functional teams have contributed to the successful delivery of complex projects. David is now seeking a role in a dynamic organization where he can leverage his skills and experience to drive growth and innovation.

CORPORATE EXPERIENCE

Full Stack Web Developer, Squad Africa
Nairobi
Nov 2018 — Present

- Championed the creation of a cutting-edge healthcare website for Ponea Health in Africa, utilizing full stack Node/React (Next.js)/Redux/Drupal CMS technologies resulting in increased access to vital medical services for all.
- Pioneered the development and deployment of an innovative A.I.-driven chatbot, utilizing Node.js, Microsoft Bot Framework, LUIS, and QNA Maker to revolutionize the KCB Bank online banking experience for users in 7 countries and 250 branches.
- Revolutionized the Absa Bank intranet portal by implementing Docker and OpenShift on Kubernetes to orchestrate a seamless collaboration experience among country members. Drove significant improvements in scalability and efficiency resulting in enhanced performance and productivity.
- Revitalized the medical services industry by spearheading the development of Ponea Health's fully-functional e-commerce platform using VueJS. Leveraged innovative ideas to make a significant contribution to the project, ultimately increasing Ponea Health's revenue and fueling its growth.

SharePoint Developer, Alternate Ltd
Nairobi
Jul 2015 — Nov 2018

- Revamped and launched web applications that delivered impressive results, propelling the company to surpass its quarterly K.P.I. by Ksh 300,000 in profits. Within one year, earned a 50% pay increase, acknowledging my outstanding contributions to the achievement of this milestone.
- Designed and executed end-to-end SharePoint intranet solutions for high-profile clients such as EABL, KPLC, Osho Chemicals, and KCB Bank, providing seamless integration and enhanced user experience. Empowered clients to leverage their intranet systems and achieve greater operational efficiency, resulting in improved workflow processes and increased productivity.
- Managed and coached a team of three junior web developers to produce top-notch web applications that exceeded client expectations. Orchestrated the adoption of agile methodologies, boosting project delivery rates and enhancing the team's efficiency. Delivered all projects within the set timelines, resulting in satisfied clients and repeat business.

INTERNSHIPS

Web Developer, Alternate Ltd   Nairobi

Jul 2014 — Sep 2014

- Utilized Microsoft SharePoint, Microsoft Project, Azure and .NET to streamline business operations and enhance project management.
